

Postural Care & Protection Service Packages

Effective 1 July, 2025

Therapy Focus' Postural Care and Protection Service includes options for ongoing assessment of body symmetry which may include the review of existing postural assistive technology or recommendations for new prescriptions.

We utilise the Goldsmith Indices of Body Symmetry (GloBS) which is a validated, objective method. It helps make sure an individual is appropriately supporting their posture to minimise the impact of asymmetrical postures and movement limitations on function and quality of life.

Package A: Body Symmetry Assessment and Analysis

Inclusive of:

- Review of current wheeled mobility device (e.g. wheelchair/stroller)
- Goldsmith Indices of Body Symmetry Assessment
- Verbal feedback of assessment results
- Summary report of assessment results including postural care recommendations and referral for postural assistive technology (if applicable)

3 hours*
at \$183.99/hour

Package B: Body Symmetry Assessment and Analysis + Pressure mapping in current wheeled mobility device

Inclusive of:

- Review of current wheeled mobility device (e.g. wheelchair/stroller)
- Pressure mapping in current wheeled mobility device
- Goldsmith Indices of Body Symmetry Assessment
- Verbal feedback of assessment results
- Summary report of assessment results including postural care recommendations and referral for postural assistive technology (if applicable)

4 hours*
at \$183.99/hour

Please note that the above 'Service Packages' are created as a guide. Length and number of sessions may be able to be adjusted in consultation with your therapist based on individual needs and goals. It will be discussed during the scheduling process how many hours will be initially allocated via the Service Agreement, with any change to this subject to our Terms of Service which can be viewed at therapyfocus.org.au.

*Inclusive of therapy assistant to provide essential support to complete GloBS which requires at least two clinicians and one advocate for the person being assessed (i.e. a total of 3 people required).
